

REFERENCE	BT_2011_FR20_14_UK
DATE	June 28th, 2011
SUBJECT	new camshaft actuator, fuel pressure sensor mounting
PART	camshaft actuator, fuel pressure sensor mounting kit

1. Camshaft actuator

The Camshaft actuator has been modified and now includes fly wires. This modification isolates the connector from vibrations. No modification needed on the engine loom connector.

This actuator is located on the top of the cylinder head, timing belt side:

View on top of the cylinder head

New one with fly wires

It is now available under the reference 77 11 166 735.

Both old and new types are now allowed.

Note: Renault Sport advises to change the part with a new one when removed from the cylinder head.

1. New fuel pressure sensor mounting

Deployment of the kit ref. 77 11 166 706 is delayed so the deployment dates communicated through Technical Bulletin n.13 are cancelled until further notice from Renault Sport.
