| SUBJECT | New extinguisher system |
| PART | Extinguisher system |

1. New extinguisher – ALLOWED FROM NOW

Following issues with self deployed extinguishers, Renault Sport has decided to change the original extinguisher with a new one from S.P.A.

This new extinguisher uses a different valve system that will resist a lot more to vibrations. The global quality of the S.P.A extinguisher system is higher than the previous one from Lifeline.

As the bottle is slightly longer, the front bracket must be changed to fit into the car. Note that this new bracket includes 2 sets of holes to be able to use both old and new types of extinguisher:

References:

- S.P.A. extinguisher kit: 07 11 166 760
- S.P.A extinguisher bottle: 77 11 166 760
- S.P.A command box: 77 11 166 761
- S.P.A command box loom: 77 11 166 762
- S.P.A extinguisher loom: 77 11 166 763
- Shorter front extinguisher bracket: 00 11 166 145

The kit ref. 07 11 166 760 includes the extinguisher bottle, the looms and the command box. This kit is available for 450€ excl. VAT.

Both old and new types of extinguisher and bracket are allowed for 2012 season.

Note: The old type of extinguisher is not available anymore.
